Objective

Aspiring software developer skilled in C programming, data structures, and front-end web development. Eager to contribute to real-world projects and grow through hands-on experience.

Education

Bachelor of Technology in Computer Science & Engineering

Techno Bengal Institute of Technology | Current CGPA: 7.5 2023-2027

Class XII (Senior Secondary)

St Thomas' Day School (ISC) | 89% 2022

Technical Skills

- Languages: C, JavaScript (basic)
- Web: HTML, CSS
- Core CS: Data Structures & Algorithms, OOP
- Tools: Git, GitHub

Projects Academic and Personal

Data Structures & Algorithms — C

- Implemented arrays, linked lists, stacks, queues, trees, and graphs in C
- Built searching and sorting algorithms with time & space complexity analysis

Student Management System — C

- Developed a menu-driven system using dynamic memory allocation and file handling
- Supported CRUD operations, sorting, and persistent storage of student records

Personal Portfolio Website — HTML & CSS

- Designed a responsive portfolio website using semantic HTML and CSS Flexbox/Grid
- Showcases projects, skills, and contact information

Restaurant Website — HTML & CSS

- Built a responsive multi-page restaurant website with clean UI and structured layout
- Implemented Flexbox-based navigation and responsive design

Tic Tac Toe Game — Python(Academic)

- Developed a console-based Tic Tac Toe game using basic control flow and user input

Key Coursework

- Design and Analysis of Algorithms
- Database Management Systems (DBMS)
- Operating Systems
- Computer Networks

Extracurricular & Achievements

- **Active GitHub Contributor:** Regularly documenting lab work and personal coding challenges.
- **Technical Problem Solving:** Solved problems on platforms like LeetCode/HackerRank.
